01 PROFESSIONAL SUMMARY

UX & Product Design Lead with 10+ years leading design strategy, product design and design systems for enterprise organizations across insurance, healthcare finance and industrial safety. Skilled at translating complex financial, regulatory and operational requirements into clear, intuitive experiences, partnering closely with Product, Engineering, Legal and Quality to ship at scale across web and mobile. Brings the craft to the work as well: pixel art, animation, videography and photo editing.

02 EDUCATION

Universitat Politècnica de Catalunya — Master's Degree in Customer Experience — April 2023

Universidad Autónoma de Guadalajara — Bachelor's Degree in Design Engineering — December 2021

03 WORK EXPERIENCE

Curae Health — Smyrna, GA

January 2022 – Present

Senior UI/UX Designer | Contract

- Served as primary Senior UI/UX and Graphic Designer for Curae Health's public-facing digital experience and core healthcare fintech product, covering liquidity, payment acceleration and revenue solutions.
- Translated complex financial and healthcare concepts into approachable experiences through strong information architecture, visual hierarchy and plain-language content.
- Built reusable layouts, components and visual patterns that unified the parent brand and product experience, improving consistency across product, marketing and sales materials.
- Produced pixel art, animation, video and photo editing for the website, product explainers and sales materials, in the same visual language as the product.

Tata Consultancy Services — Spring Valley, CA

July 2022 – July 2026

UX/CX Lead | Senior UI/UX Designer | Senior Packaging Designer

Led UX, CX and product design initiatives for enterprise digital products serving complex global organizations, spanning strategy, information architecture, interaction design and design systems.

PROJECT — PIP GLOBAL SAFETY · GLOBAL PRODUCT MIGRATION & REBRANDING

2025 – 2026

- Led UX and product design for the migration and rebrand of 2,000+ products, documents and digital assets into 25 languages following PIP Global Safety's acquisition of Honeywell's safety division, across the Americas, Europe and Asia.
- Built structured workflows and reusable templates with locked brand zones and flexible content zones that kept packaging, documentation and digital interfaces consistent across regions under a one-year deadline.
- Partnered with global stakeholders across design, product and compliance to establish a unified design language spanning digital interfaces and physical product touchpoints.

PROJECT — METLIFE · CLIENT & AGENT DIGITAL ECOSYSTEM

2022 – 2025

- Led UX/CX strategy and UI/UX design across MetLife's Client Self-Service app, Client Web Portal and Agent Web Portal, spanning the US, Mexico and Colombia on iOS, Android and responsive web.
- Simplified complex insurance workflows (claims, payments and reimbursements) through clear information architecture, progressive disclosure and step-by-step flows that built customer confidence at high-stakes moments.
- Maintained three design systems with 100+ components, with tokens and defined states that held across iOS, Android and web.
- Ran usability testing across markets and fed findings directly into iterative design decisions, in close partnership with Product, Engineering, Legal and Quality.

– Created pixel art, UI animation, video and photo editing for app walkthroughs and launch materials across the three markets.

Hedy & Hopp — St. Louis, MO January 2022 – January 2023

Lead Designer | Contract

Supported complex internal processes and operational requirements for BJC Health, combining UX strategy, information architecture and visual design with a focus on security and compliance.

PROJECT — BJC · INTERNAL DIGITAL PLATFORM & WEB EXPERIENCE

– Designed an internal web platform supporting employee-facing workflows and operational processes within confidentiality, security and compliance requirements specific to a healthcare environment.
– Simplified navigation and information architecture to create clearer, more intuitive experiences for employees and internal users.
– Established reusable design patterns and structural standards that improved consistency across internal and public-facing experiences.

Token Agency — Spring Valley, CA Aug 2017 – Jan 2022

Lead UI/UX Designer | Creative Lead

– Led UX strategy and digital design for websites, products and customer-facing experiences across multiple industries and business models.
– Ran user research, usability testing, journey mapping and UX analysis to identify pain points and design opportunities.
– Led branding, creative direction and marketing design alongside UX strategy, connecting brand and customer journeys across touchpoints.
– Produced videography, animation, pixel art and photo editing for client campaigns, websites and social content, including for video and photography clients.
